***DURING YOUR VISIT, MAKE SURE NOT TO MISS**

THE AWARENESS RAISING PROJECTS BAZAAR: The awareness raising projects bazaar will take place during the break in front of the conference hall, where you can learn and get first-hand information about different projects.

THE EUROPA EXPERIENCE MULTIMEDIA CENTRE.

The Europa Experience multimedia centre, whose main goal is to explain the European Union in an accessible and playful way, is the younger brother of the Brussels based Parliamentarium. With the use of its Interactive media stations, you can easily learn how the EU works and how decisions taken at European level affect the daily lives of European citizens. The multimedia centre also holds a lot of information about MEPs and Commissioners, and numerous European integration projects. You will be impressed by the photo booth, where you can take photos with the selected background from different European cities.

THANK YOU FOR E-CYCLING WITH US!
